Project name: Návraty na UK

Project registration number: CZ.02.01.01/00/24_037/0013839

Methodology: <https://opp.cuni.cz/OPP-148.html>

More information: <https://opp.cuni.cz/OPP-145.html>

Login and access to the PAS (Projects and Competitions) module

Applications are submitted via the **PAS (Projects and Competitions) module** of the [IS Věda information system](https://is.cuni.cz/veda). The IS Věda information system is available at <https://is.cuni.cz/veda>, and can be accessed via a normal web browser. The system can only be accessed by students and employees of Charles University, who can log in to the system using data from the Central Authentication Service (CAS).

Username

Enter your personal number (CU personal number or assigned login).

Password

Enter the password.

After logging in, the main page of the IS Věda Portal appears. Current information can be displayed in the left-hand part of the portal, and in the right-hand part there is a signpost in which you can click on the **orange PAS (Projects and Tenders) button**.

Creation, completion and submission of an application

Creation of an application

After entering the PAS module, you will see the Dashboard. On the left side of the screen, there is a menu where you can select the **My Records** menu.

Co-funded by
the European Union

Click the **New Record** button to create a new application. A list of current open calls is displayed. **Click on the title of the call to select returns.**

After the category is selected a landing page appears, on which you can find basic instructions for submitting your application. We recommend that you read these carefully. You can return to them later by clicking the **Tender terms** button at the top right of the open application.

After reading the instructions, click on **the blue arrow button at the bottom right.**

The system creates the application after you have filled in the following basic data:

New record

Category**
Returns 2025

University Unit**
[Empty field with warning icon]

Start Date**
[Empty field with warning icon]

Due Date**
[Empty field with warning icon]

Show the record to co-researchers
Whole project

Item is mandatory

Some fields contain an information point that is displayed after clicking on the question mark in the blue circle.

If the required field is not filled in, it is marked with a warning icon in the form of an exclamation mark in a red triangle.

Show the record to co-researchers

It is not possible to change the value in this field. This option means that all other people who will be included in the application (see [Contact Persons tab](#) below) will have access to view the entire application.

Co-funded by
the European Union

Start date, Due date

Choose the dates of the project from the calendar. The duration of the project must be stated in whole months, i.e., beginning on the first day of the month and ending on the last day of the month. The project duration must be within the specified range, with a minimum duration of 2 years and a maximum duration of 3 years.

After filling in this data, click the **blue arrow-shaped button** at the bottom right. The system checks the completed data, and if they are complete, the application is created, and other parts of the form are opened.

After the application has been created, it is necessary to enter the necessary data in all tabs except **Requests and Queries**. We recommend filling in the tabs in the order in which they are displayed. While filling in the application, it is possible and recommended to save the application as you go.

Completion of an application

The application form consists of several tabs. Each tab contains important information that must be filled in. Required fields are marked with asterisks **. At the top of the form, on the Basic Information tab, there is a header with the application identification details (application number, category, applicant, application status); these details are filled in automatically by the system and cannot be changed. When filling out the form, you can use the help function, which appears when you click on the icon .

You can save your application at any time using the floppy disk icon button and then return to it later (each tab can be saved separately). Saving does not submit the application; submission is only possible after all required information has been filled in and the Submit button has been clicked. You can therefore edit your application as you wish until you decide to submit it.

You can access your pending application again via the My records menu. You will find it on the tab with the same name, My Records. Open it by clicking on the application number.

Basic information tab

On the first tab, you need to provide basic information about the project for which you are applying for financial support, including the requested financial contribution and its justification.

Research team tab

The tab is divided into sections: Principal Investigator, Supportive Professional Team, Internal Mentor, External Mentor.

The **Principal Investigator** is pre-filled according to the person submitting the application and cannot be changed. The Principal Investigator section is pre-filled with information from the personnel system; other details must be added.

The **Supportive professional team** is not mandatory. If other persons are to participate in the project, there can be a maximum of 4, and the total sum of their working capacity cannot exceed 2. Only persons affiliated with Charles University (internal persons) can be members of the supporting expert team, so they must be selected from the Charles University personnel database.

Every supportive professional team member listed in the application [must give their consent to participate](#), i.e. confirm in the app that their data can be included in the application. **Until consent is given, it is not possible to edit any details of team member, including contact information.** The request for consent is sent to the person's e-mail address as specified in the HR system. Any missing contact information can be added after they have given their consent to participate.

Co-funded by
the European Union

Applicant Principal investigator Person Jan Student UK: 12345678 Internal people	This record is not valid - It is necessary to fill in the researcher's STUDENT Jan ({{roleEng}}) Work capacity. - Field 'Senior / Junior' for researcher STUDENT Jan (Principal investigator) is required. - Attachment of type 'Docs conf. compl. with the def. of a career break' is required for researcher STUDENT Jan. - Attachment of type 'CV' is required for researcher STUDENT Jan. - Attachment of type 'Career plan' is required for researcher STUDENT Jan.	<table border="1"> <tr> <th>Other</th> <th>Consent to participate</th> </tr> <tr> <td>Work capacity: null</td> <td>Granted</td> </tr> </table>	Other	Consent to participate	Work capacity: null	Granted
Other	Consent to participate					
Work capacity: null	Granted					

You can fill in information about any person in a modal window that opens when you click on the person's name in the table of persons in the given section. Fill in all the required fields in the open window. Additional information is provided in the help sections for each field.

General rules for the inclusion of persons other than oneself (GDPR)

In order to ensure that they are aware of the use of their personal data (GDPR) as part of the application, all persons listed in the form must give their consent to such inclusion. If you list yourself as the applicant, the system understands this as a statement of consent; however, consent must be obtained from other persons who are to be included in the application.

The system sends an automatic e-mail to request the consent of persons listed as the Supportive Professional Team member or Internal mentor.

Detailed procedure for internal and registered persons

After selecting a person, a window will appear for you to write an optional personal message, which the system then includes in the automatic e-mail requesting consent to participate.

Consent to participate

The participation consent is required for filling in other fields. The request for consent will be emailed to this person after project changes are saved. Message, which will be sent together with the request, can be written below.

Message for requestee (optional)

Confirming this window does not send the e-mail! E-mails are not sent in bulk to all entered persons until the changes have been saved (see below).

After this window has been confirmed it will not be possible to edit any additional fields in the detailed information for the person and no personal or study information will be loaded until the person has given their consent to participate. A label with the current status of the request ('Request will be sent') is displayed next to the name of the listed person.

Internal mentor

Person
 GARANT Jan, RNDi: (323456789)

Workplace
 FSV, Faculty of Social Sciences

Internal mentor				
+ Internal mentor				
Person	Relation	Contacts	Other	Consent to participate
 UK: 323456789	FSV: Faculty of Social Sciences already in relation with UK			Request will be sent

The system sends e-mails with a request only after the changes have been saved and it has been confirmed that they can be sent:

Request for consent

There are persons in the project who have not been sent a request to participate yet. By saving the changes, a request will be sent. Do you want to save changes or continue editing the form?

Send and save
Back to the form

The person's status label will change to Pending Consent.

Internal mentor				
+ Internal mentor				
Person	Relation	Contacts	Other	Consent to participate
RNDr. Jan Garant UK: 323456789	FSV: Faculty of Social Sciences already in relation with UK			Waiting

The applicant is notified of the need to wait for consent by an exclamation mark in a blue triangle:

Internal mentor

+ Internal mentor

Person

RNDr. Jan Garant

UK: 323456789

External people in

External mentor assign

- Enter basic inform

This record is not valid

- It is necessary to fill in the researcher's GARANT Jan (positionEng) email.
- It is necessary to fill in the researcher's GARANT Jan (positionEng) phone.
- Person GARANT Jan, RNDr. has not yet granted their consent to participate.
- Field 'Year of PhD.***' for researcher GARANT Jan (Internal mentor) is required.
- Field 'Domain/thematic cluster 1***' for researcher GARANT Jan (Internal mentor) is required.
- Field 'I declare that the work capacity of mentor allocated to this project will not exceed 0.2 FTE' for researcher GARANT Jan (Internal mentor) is required.
- Attachment of type 'CV' is required for researcher GARANT Jan.

You will receive an e-mail telling you whether the contacted person has granted or refused consent. The decision is indicated with a green or red label:

Person	Relation	Contacts	Other	Consent to participate
RNDr. Jan Garant UK: 323456789	FSV: Faculty of Social Sciences already in relation with UK	E-mail: lenka.senftova@ruk.cuni.cz		Granted

Person	Relation	Contacts	Other	Consent to participate
RNDr. Jan Garant UK: 323456789	FSV: Faculty of Social Sciences already in relation with UK			Refused

If consent is refused, the relevant team member must be removed (see [Removing a person from the team](#)).

If consent is granted, the system will automatically unlock all locked fields and retrieve the remaining personal information from the code list, or data can be entered manually.

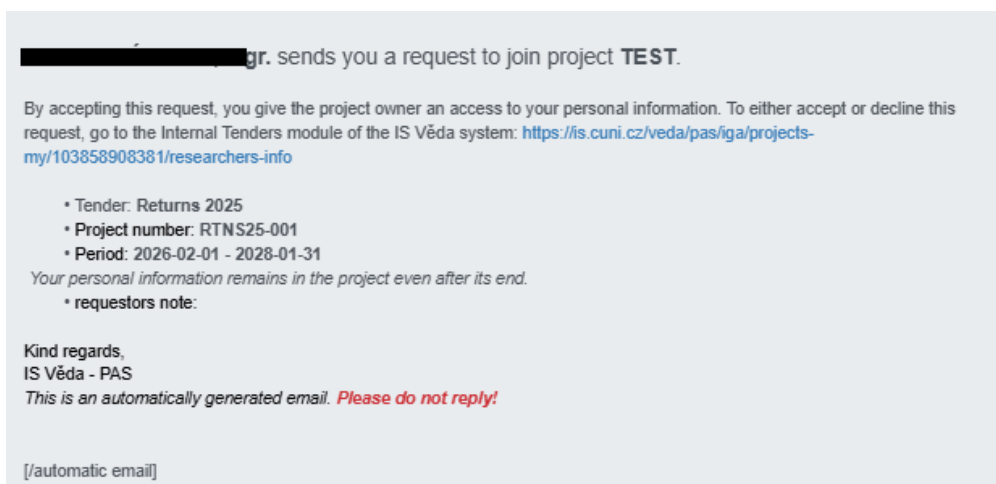

Consent procedure by internal or registered persons

Persons designated as a supportive professional team member or internal mentor receive a notification e-mail with a request for consent.

Co-funded by
the European Union

The IS Věda login page opens after they click on the link. If the internal person does not receive/cannot find the notification e-mail with the request for consent, they can enter the address directly into the browser: <https://is.cuni.cz/veda>.

After logging in to the system, they must go to the PAS module. In the **Other Records** tab in the **My Records** menu on the left-hand side they will see the list of applications and must then click on the number of the application for which consent to participate is being requested.

They will find their name in the **Research team** tab, after which they must click on the 'Consent to Participation' button on the right.

Internal mentor

Person	Relation	Contacts	Other	Consent to participate
RNDr. Jan Garant	FSV: Faculty of Social Sciences already in relation with UK			<button>Consent to participate</button>

Co-funded by
the European Union

This button then opens a dialogue box through which they agree to participate by clicking on the green 'Grant' button or refuse to participate by clicking on the red 'Refuse' button.

A dialog box titled "Consent to participate" with a close button (X) in the top right corner. The form is divided into two columns. The left column contains a "Person" field with the text "GARANT Jan, RNDr. (323456789)", a "Phone" field, a checkbox labeled "Contact person" which is checked, and a "Consent to participate:" section with a blue "Waiting" status and two buttons: a green "Grant" button and a red "Refuse" button. The right column contains a "Workplace" field with the text "FSV: Faculty of Social Sciences", an "Email" field, and a "Message for requestee (optional)" text area.

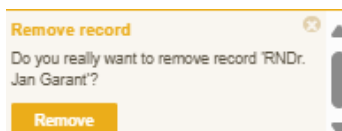

Removing a person from the team

If a person is entered by mistake, or if the supportive professional team member or internal mentor refuses to give their consent to participate, you can remove that person by using the button with the rubbish bin icon that appears when you hover your mouse over the field with the name of the position:

A section titled "Internal mentor" containing a button "+ Internal mentor". Below it is a list of people. The first entry is "RNDr. Jan Garant" with a blue triangle icon and a link "UK: 323456789". A green arrow points to a trash bin icon next to the name, indicating the removal button.

Removal of a person still requires confirmation:

A confirmation dialog box titled "Remove record" with a close button (X) in the top right corner. It contains the text "Do you really want to remove record 'RNDr. Jan Garant'?" and a yellow "Remove" button.

Attachments tab

You can attach files to your application on the tab. The list of required attachments is provided in the instructions directly on the tab. You can download the calculator and RIS3 strategy agreement in the competition rules. Applications cannot be submitted without the attachments marked as mandatory. Each attachment has specified file types that are permitted; attachments in other formats cannot be added.

To add an attachment, click in the marked space and attach the file from the hard disk or drag and drop the file into the space.

Requests and Issues Tab

This tab is used for all communication with the university clerk in charge of the Returns programme. Communications are also archived on this tab. If you need to request an edit to an application that you no longer have edit rights to with respect to its status, or add some information, please use the **Request for a project change** button. Likewise, you can add any attachment you want to your application or document requested by the clerk or request a permissible change to an ongoing project (change of supportive

Co-funded by
the European Union

Requests entered in this way provide a direct link to the specific application from which it was generated and facilitate the identification of any problem.

Request for a project change

The entry form is identical to the one used when submitting a query to the helpdesk from any part of the application. The only difference is whether it is a general query or a specific request to change the information in the application.

Systematic review of the application

Basic information Research team Attachments **Requests and Issues** ✓ Check ☰ Tender terms ⋮

After the button has been pressed, the system checks that all mandatory items have been completed. It highlights any missing data that has to be added. Example:

Check result

- Basic information
 - Operation result "Maximum of requested amount" is not valid (value must be <= 10000000). Currently is 10999999.99
 - Dynamic field Expertise** is required for state change
- Research team
 - It is necessary to fill in the researcher's STUDENT Jan (positionEng) phone.
 - Attachment of type 'Participation consent' is required for researcher NOVÁK Jan.
 - The number of researchers at positions Internal mentor, External mentor must be equals 1.
- Attachments
 - The file itself is not yet uploaded to attachment of type 'Statement by the Dean of the Faculty'.
 - The file itself is not yet uploaded to attachment of type 'Compliance with the RIS3 strategy'.

Exit

The system also checks whether all persons have given their consent to participate. If all details have been filled in, the check is successful, and the application can be submitted.

Check was successful

No problems were found.

Submission of application

Only applications that have successfully passed the system check (see above) can be submitted. Use the Submit button (in the lower left corner of the screen) to submit your application.

After pressing the **Confirm** button, you will **no longer be able to edit the application**. At the moment of submission, the record passes to the responsibility of the clerk, who further processes the application.

Submit

Applicant - Submit

Confirm action.

Exit

OK

If the application period has not yet ended, it is possible to withdraw the application, edit it, and resubmit it.

Co-funded by
the European Union

If the collection has already ended, it is no longer possible to withdraw the application. In this case, you can contact the clerk by message only, i.e. insert a question or request using one of the buttons on the **Requests and Issues** tab, at any time during the processing of the request by the clerk.

Processing of submitted applications

After the application collection period ends, internal processing takes place. The application is checked to ensure that it has been submitted correctly and meets the eligibility criteria. If the application is rejected at this phase, it is moved to the status Excluded in the 1st round.

This is followed by a substantive evaluation process by evaluators, who assess the application and complete an evaluation protocol. The result of the substantive evaluation is a decision on whether the application will be Accepted or Rejected or possibly Rejected due to capacity reasons (Rejected – alternate). The application is then transferred to the appropriate status. In the statuses Rejected, Accepted, Rejected (alternate), Grant accepted by applicant, Grant not accepted by applicant, reports with the results of the substantive evaluation will be available.

Managing accepted applications

If your application for a Return grant is accepted, the project realization record is also managed in the IS Věda. For you as the principal investigator, the record is read-only for the entire duration of the project. If you want to make any changes to the record, submit a request on the Requests and Issues tab. A list of changes that can be made during the project realization is provided in the methodology. If you request changes to the supportive professional team or changes to the work capacity, please provide the information carefully so that it is clear what work capacity will apply for what period. If you want to add another member to the team, please include their personal UK number (UKČO) in the request. You must also include a CV of new team member in your request for change. CV is mandatory for every member of the supportive professional team.

Interim report

Every applicant whose project has received financial support is required to submit an interim report within 14 days after the end of each month of project realization. Form for filling in the interim report and attaching relevant documents to your project realization record can be found on the Reports tab in the IS Věda application.

In the Interim Report section, a form for the interim report for the period just ended will be generated each month. The column shows the status of the report, which is "In development" after generation. The Deadline column shows the date by which the report must be completed and submitted. Open the form by clicking on

Co-funded by
the European Union

Possible attachments that can be included in the report:

- Calculator Activity 3 realization of a return grant: mandatory attachment in every report. Note, that the calculator form can be downloaded in the "Tender terms" in the project implementation record details.
- Overview of team members activities: mandatory attachment in every report. For each team member who was involved in the given period, an overview of the activities performed must be attached. The table above the tab contains a list of all team members. If a team member had a work capacity greater than zero during the given period, an overview of their activities must be included. Therefore, the list of attachments should contain the same number of Overview documents as there are team members who had a work capacity greater than zero during the given period. Note, that the Overview of team members activities form can be downloaded in the "Tender terms" in the project implementation record details.
- Data management plan: in the interim report submitted after six months of the project, the applicant is required to attach a data management plan. The data management plan must be updated whenever there is a change during project realization.
- Documents relating to mobility: if mobility took place during the period in question, a mobility report must be submitted with the interim report for that month.
- Training certificate: if planned training took place during the period in question, training certificates must be attached to the relevant interim report.
- Other attachment: any attachments that are appropriate to attach to the report.

Type

Documents relating to mobility

Overview of team members activities

Once you have filled in all the fields and attached all the required attachments, you can submit the report by clicking on the "Submit" button. Once the report has been submitted, no further changes can be made. The faculty administrator will be notified of the submission via email and will review the report. If anything needs to be added, the report will be returned to you. If everything in the report is complete, the administrator will confirm your report and forward it to the university rector's office for approval.

Final report

Every applicant whose project has received financial support is required to submit a final report within 1 month after the end of project realization. Form for filling in the final report and attaching relevant documents to your project realization record can be found on the Reports tab in the IS Věda application.

Support – HelpDesk

You can contact the system support of the PAS module using the built-in HelpDesk or directly in the app via the Requests and Issues tab.

Using the Requests and Issues tab, select the appropriate button depending on what you need to resolve:

Using the navigation on the left-hand side of the screen, click **Ask for help** to open a window for you to complete your query.

Now describe in detail what you need help with. Choose as one of the recipients the **Returns** and click on **Create** to send the query.

As soon as someone responds to your question, you will be sent a notification e-mail, which also contains a link leading directly to the detailed reply to your question. You can check the status of your query at any time in the **List of issues** section in the left-hand side of the screen. Here, you can search for all the queries you have ever entered or dealt with in the system.
